## CURRICULUM AND PROGRAMMING

The Little Willows curriculum is planned in accordance with our mission statement of providing “a safe, fun and nurturing environment while enhancing their social, spiritual and developmental growth and preparing them for lifelong learning.” The following objectives guide the curriculum for each classroom:

Children will demonstrate developmentally appropriate skills in the following areas.

- Social skills – ability to play and interact appropriately with other children and adults without a parent present
- Fine and gross motor skills – use of small and large muscle groups through physical activities with hands, arms, and legs
- Attention and listening skills – ability to attend to directed and non-directed activities such as story time and to follow simple directions
- Language/communication skills – ability to express needs, feelings, and ideas to other children and adults in a non-aggressive or frustrated manner
- Basic conceptual knowledge – awareness of basic colors, shapes, numbers, names, alphabet, body parts, animals, weather, and opposites
- Basic Christian knowledge and behavior – awareness of God’s love, Bible stories, and Christian values of kindness and sharing

The classroom programming varies based on the individual teachers. Lesson plans are continually created and updated by the teachers to ensure children have new experiences. Classroom schedules and activities are flexible and based on the developmental level of children. They share the following characteristics:

- Focus on Christian values and fostering a love of learning
- Combination of structured and non-structured time
- Fun and encouraging transitions between activities
- Variety of learning experiences
- Bible and faith-based activities
- Children’s literature
- Opportunities to practice social skills
- **Basic** readiness skills (colors, shapes, numbers, alphabet)
- Music and movement activities
- Play-based learning

## **EXPECTED BEHAVIOR**

We strongly encourage the following behaviors:

- Participation in classroom activities
- **Brief** periods of quiet sitting for story times
- Following simple directions
- Sharing and kindness toward others

When inappropriate behaviors occur, teachers will encourage appropriate behavior through:

- Demonstration of appropriate behavior
- Re-direction of attention
- Verbal request or reprimand in firm yet positive tone
- Brief “time-out” (child will sit in designated area for maximum of 2-5 minutes)
- Teacher will explain in simple terms what is required to return to activity
- Parent notified if behavior persists
